INDEX

ABRAMSON, D. I. and K. JOCHIM. The spread of the impulse in the mammalian ventricle, 635.

Absorption of insulin from gastro-intestinal tract, hexylresorcinol and, 744.

—— of insulin from intestinal loops, 733.

—— spectra of vital dyes in plasma, 494.

Acetylcholine contracture of denervated muscle, 757.

ACHESON, G. H. See ROSENBLUETH and ACHESON, 514.

Acid inhibition of gastric secretion, psychic factor in, 619.

Adrenal cortex, relation of hypophysis and, to blood sugar, 649.

—— extract, purified, action of, 213.

—— medullectomy and emotional hyperglycemia, 420.

—— -gonad relationships, 36.

Adrenalectomy and liver fat, 361.

—— and nephrectomy, serum K and Na after, 83.

—— in mice, 36.

Adrenals, hair growth and, 427.

Adrenine, sensitivity of nictitating membrane to, 466.

AMBERSON, W. R. See ETTELDORF, MITCHELL and AMBERSON, 451.

Ammonia excretion by perfused kidney, 365.

Amniotin and basal metabolism after thyroidectomy, 671.

ANDERSEN, D. H. See VICTOR and ANDERSEN, 154.

ANDERSON, E. M. and H. M. EVANS. The effect of thyreotropic hormone combined with small amounts of iodine upon the function of the thyroid gland, 597.

ASHKENAZ, D. M. An experimental analysis of centripetal visceral pathways based upon the viscero-pannicular reflex, 587.

Atmospheric humidities, reactions of human body to, 288.

Atrophy, muscle electrolytes and water during, 719.

Atropine and gastric secretion, 657.

Auditory nerve, electrical potential of cochlea and, 666.

—— stimulation, brain stem responses to, 304, 316.

β-HYDROXYBUTYRIC utilization, increased metabolism and, 446.

BACHMANN, G., J. HALDI, W. WYNN and C. ENSOR. The respiratory quotient and carbohydrate metabolism following the ingestion of glucose and of fructose as affected by exercise taken immediately and thirty minutes after ingestion, 579.

BALL, H. A. See SAMUELS, SCHOTT and BALL, 649.

BARRERA, S. E. See GUTTMAN and BARRERA, 666.

——. See NORTHINGTON and BARRERA, 703.

BARRIS, R. W. Deficiencies in the righting reflexes of cats following bilateral cortical lesions, 225.

——. See WALLER and BARRIS, 144.

BARRON, L. E. and G. M. CURTIS. The late effects of bilateral resection of the splanchnic nerves on the human gastric motor mechanism, 356.

BARTLEY, S. H. Some observations on the organization of the retinal response, 184.

——, J. O'LEARY and G. H. BISHOP. Differentiation by strychnine of the visual from the integrating mechanisms of optic cortex in the rabbit, 604.

Basal insulin requirement of depancreatized dogs, 345.

Berg, B. N. and T. F. Zucker. Blood sugar recovery from insulin hypoglycemia after section of the splanchnic nerves, 435.
Bergman, H. C. See MacKay, Bergman and MacKay, 83.
Bernstein, S. The relation between summation and inhibition in a spinal reflex, 798.
Beynon, L. H. Is copper essential for iron utilization, 423.
Bile duct ligation, serum and urine phosphatase after, 696.
——, secretion of sodium cholate in, 75.
Bishop, G. H. See Bartley, O'Leary and Bishop, 604.
Blackberg, S. N. See Hrubetz and Blackberg, 222.
Blood cell fragility, decreased, after splenectomy, 150.
—— osmotic pressure, fluid distribution and water intake, relation between, 323.
—— pressure in acute carbon monoxide poisoning, 91.
—— ——. *see* Hypertension.
—— stream, removal of sodium cholate from, 75.
—— sugar level and rate of sugar utilization, 761.
—— —— recovery after insulin hypoglycemia, 435.
—— ——, relation of hypophysis and adrenal cortex to, 649.
—— vessels, occlusion of, by agglutinated red cells, 59.
—— ——, small, micromanipulation of, in mouse, 23.
——, volume flow of, in sympathectomized limb, 475.
Body reactions to environmental temperatures, 1.
Boneta, H. See Sherwood, Wilson and Boneta, 671.
Bourdillon, J. Distribution in body fluids and excretion of ingested ammonium chloride, potassium chloride and sodium chloride, 411.
Brain, electrical changes during hypoglycemia, 559.
——, fore-, influence of, on an autonomic reflex, 257.
Brain stem responses to auditory stimulation, 304, 316.
——. *See* Cerebellum.
——. *See* Cortex.
——. *See* Cortical.
Breathing, rate and depth of, 105.
Brewer, N. R. Blood pressure responses to acute carbon monoxide poisoning, 91.
Britton, S. W. See Ehrenstein and Britton, 213.

BALTIMORE, MD.
1937

CONTENTS

No. 1. September, 1937

Physiological Reactions of the Human Body to Varying Environmental Temperatures. *C.-E. A. Winslow, L. P. Herrington and A. P. Gagge* 1
Micromanipulation of Small Blood Vessels in the Mouse. *Benjamin W. Zweifach and Charles E. Kossmann* 23
Adrenalectomy in Mice, and the Replacement of X-Zone-Bearing Adrenals by Cortical Extract with Especial Reference to Adrenal-Gonad Relationships. *Evelyn Howard* 36
Adequate Shape and Rate of Stimuli in Electrical Stimulation of the Cerebral Motor Cortex. *Oscar A. M. Wyss and Sixto Obrador* 42
The Response of the Liver to the Oral Administration of Glucose. *Ian S. Cherry and Lathan A. Crandall, Jr* 52
Occlusion of Blood Vessels by Agglutinated Red Cells, Mainly as Seen in Tadpoles and Very Young Kangaroos. *P. F. Swindle* 59
The Removal of Sodium Cholate from the Blood and Its Secretion into the Bile as Affected by Thyroxine. *L. H. Schmidt* 75
Serum Potassium and Sodium as Altered by Adrenalectomy and Nephrectomy. *Eaton M. MacKay, H. C. Bergman and Lois Lockard MacKay* 83
The Effect of Physiologic Hypersecretion on the Gastro-Duodenal Mucosa. *C. R. Schmidt and S. J. Fogelson* 87
Blood Pressure Responses to Acute Carbon Monoxide Poisoning. *N. R. Brewer* 91
A Quantitative Method for the Bioassay of Progestin. *Gregory Pincus and N. T. Werthessen* 100
The Interaction of the Rate and Depth Components of Respiratory Control. *Robert Gesell, Ellis H. Steffensen and John M. Brookhart.* 105
Immunity to Iodothyroglobulin Does Not Affect Its Physiological Action. *Samuel H. Rosen and David Marine* 121
Follicular Growth Rate and Ovulation after Various Experimental Procedures in the Guinea Pig. *Edward W. Dempsey* 126
The Relative Influence of Radiation and Convection upon Vasomotor Temperature Regulation. *L. P. Herrington, C.-E. A. Winslow and A. P. Gagge* 133
Pupillary Inequality in the Cat Following Experimental Lesions of the Occipital Cortex. *Wm. H. Waller and Ralph W. Barris* 144
Decreased Red Cell Fragility after Splenectomy. *Albert S. Gordon, William Kleinberg and Eric Ponder* 150
Stimulation of Anterior Hypophysis Metabolism by Theelin or Dihydrotheelin. *Joseph Victor and Dorothy H. Andersen* 154
Maternal Behavior in Hypophysectomized Male and Female Mice. *C. P. Leblond and W. O. Nelson* 167
Electrical Potentials of the Heart of the Chick Embryo. *J. A. E. Eyster, M. R. Krasno and J. P. Hettwer* 173
The Sensitization of Inhibited Structures by Denervation. *J. V. Luco* 179
Some Observations on the Organization of the Retinal Response. *S. Howard Bartley* 184

Oxygen Deficiency, Carbon Dioxide and Temperature Regulation. *Ernst Gellhorn.* 190
The Effect of Sympathectomy on the Vasomotor Carotid Sinus Reflexes of the Cat. *Caroline Bedell Thomas and Chandler M. Brooks* 195
The Urinary Excretion of Sucrose and Its Distribution in the Blood after Intravenous Injection into Normal Men. *Norman M. Keith and Marschelle H. Power* 203

No. 2. October, 1937

The Purification of Adrenal Extracts and Isolation of an Activator of Male Sex Hormones. *Maximilian Ehrenstein and S. W. Britton* 213
Carbohydrate Mobilization. *M. Caroline Hrubetz and S. N. Blackberg* 222
Deficiences in the Righting Reflexes of Cats Following Bilateral Cortical Lesions. *Ralph W. Barris* 225
The Effect of Oestrone on the Secretion of the Gonadotropic Complex as Evidenced in Parabiotic Rats. *Roland K. Meyer and Roy Hertz* 232
The Effect of Hypophysectomy on Arterial Blood Pressure of Dogs with Experimental Hypertension. *Irvine H. Page and J. E. Sweet* 238
Changes in the Submaxillary Secretory Response to Pilocarpine after Section of the Chorda Tympani. *F. Richard Pierce and Magnus I. Gregersen* 246
The Influence of the Forebrain on an Autonomic Reflex. *R. S. Morison and D. McK. Rioch* 257
A New Physiological Variable Associated with Sensible and Insensible Perspiration. *A. P. Gagge* 277
Physiological Reactions of the Human Body to Various Atmospheric Humidities. *C.-E. A. Winslow, L. P. Herrington and A. P. Gagge* 288
The Effects of Hysterectomy on Mammary Gland Development in a Rabbit. *James L. Gillard* 300
Electric Responses of the Brain Stem to Unilateral Auditory Stimulation. *E. H. Kemp, G. E. Coppée and E. H. Robinson* 304
Electric Responses of the Brain Stem to Bilateral Auditory Stimulation. *E. H. Kemp and E. H. Robinson* 316
The Relation between Blood Osmotic Pressure, Fluid Distribution and Voluntary Water Intake. *Alfred Gilman* 323
Effect of Posture on Cardiac Output. *H. Morrow Sweeney and H. S. Mayerson* 329
Secretin is a True Cholagogue. *Carlos A. Tanturi, A. C. Ivy and Harry Greengard* 336
Reflex Inhibition of the Knee-Jerk from Intestinal Organs. *J. G. Dusser de Barenne and A. A. Ward, Jr* 340
The Basal Insulin Requirement of Depancreatized Dogs. *Paul O. Greeley* 345
Further Evidence of Cerebellar Influence in the Habituation of After-Nystagmus in Pigeons. *Ward Halstead, George Yacorzynski and Franklin Fearing* 350
The Late Effects of Bilateral Resection of the Splanchnic Nerves on the Human Gastric Motor Mechanism. *Louis E. Barron and George M. Curtis* 356
Influence of Adrenalectomy on Liver Fat as Varied by Diet and Other Factors. *Eaton M. MacKay* 361
The Excretion of Ammonia by the Perfused Kidney. *Samuel Gelfan and Maurice B. Visscher* 365
Susceptibility of Erythrocytes to Hypotonic Hemolysis as a Function of Discoidal Form. *W. B. Castle and Geneva A. Daland* 371
The Electric Responses of the Facial Muscles. *A. Rosenblueth and R. S. Morison.* 384
Physiological Properties of a Central Excitatory Agent in Fluid Obtained by Occipital Puncture of Man and Animals. *Irvine H. Page* 392

Studies on the Sensitivity of Smooth Musculature to Exogenous Epinephrine. *Peter Heinbecker* 401
Distribution in Body Fluids and Excretion of Ingested Ammonium Chloride, Potassium Chloride, and Sodium Chloride. *Jacques Bourdillon* 411
The Influence of Destruction of the Adrenal Medulla on Emotional Hyperglycemia in Rats. *Robert E. Harris and Dwight J. Ingle* 420

No. 3. November, 1937

Is Copper Essential for Iron Utilization? *Lisabeth H. Beynon* 423
Hair Growth in Adrenalectomized, and Adrenalectomized Thyroxin-Treated Rats. *Earl O. Butcher* 427
Blood Sugar Recovery from Insulin Hypoglycemia after Section of the Splanchnic Nerves. *B. N. Berg and T. F. Zucker* 435
Epinephrine Output from the Adrenal Glands in Experimental Diabetes. *J. M. Rogoff and E. Nola Nixon* 440
The Influence of Increased Metabolism on β-Hydroxybutyric Acid Utilization. *I. Arthur Mirsky and R. H. Broh-Kahn* 446
The Effects of Total Plasmapheresis and Protein Regeneration upon the Agglutination Titre in Dogs Immunized against B. Typhosus. *James N. Etteldorf, J. B. Mitchell, Jr. and William R. Amberson* 451
The Significance of Subnormal Respiratory Quotient Values Induced by Controlled Feeding in the Rat. *Nicholas Werthessen* 458
The Effect of Regeneration of the Nerve Supply on the Sensitivity of the Denervated Nictitating Membrane to Adrenine. *F. A. Simeone* 466
The Effect of Temperature on the Volume Flow of Blood through the Sympathectomized Paw of the Dog with Observations on the Oxygen Content and Capacity, Carbon-Dioxide Content, and pH of the Arterial and Venous Blood. *Norman E. Freeman and J. Wallace Zeller* 475
Ovarian Weight Responses to Menopause Urine Injections in Normal, Hypophysectomized and Hypophysectomized Thyroxin-Treated Immature Rats. *H. H. Tyndale and Louis Levin* 486
Conditions Affecting the Absorption Spectra of Vital Dyes in Plasma. *Magnus I. Gregersen and John G. Gibson, 2nd* 494
Does the Nictitating Membrane of the Cat Have a Refractory Period? *A. Rosenblueth and G. H. Acheson* 514
The Reversible Inhibition of Muscle Glycolysis. *C. L. Gemmill and Leslie Hellerman* 522
Some Effects of Intraperitoneal Glucose Injections and Excess Water in Normal, Adrenalectomized, and Hypophysectomized Rats. *Robert Gaunt, John W. Remington and Malvina Schweizer* 532
The Rôle of the Cerebral Cortex and of Various Sense Organs in the Excitation and Execution of Mating Activity in the Rabbit. *Chandler McCuskey Brooks* 544
Insulin and Gastric Motility. *Joe Lalich, W. B. Youmans and Walter J. Meek* 554
The Electrencephalogram of Schizophrenics during Insulin Hypoglycemia and Recovery. *Hudson Hoagland, Morton A. Rubin and D. Ewen Cameron* 559
An Analysis of the Chronotropic Function of the Cardiac Vagus Nerves. *A. S. Gilson, Jr* 571
The Respiratory Quotient and Carbohydrate Metabolism Following the Ingestion of Glucose and of Fructose as Affected by Exercise Taken Immediately and Thirty Minutes after Ingestion. *George Bachmann, John Haldi, Winfrey Wynn and Charles Ensor* 579

An Experimental Analysis of Centripetal Visceral Pathways Based upon the Viscero-Pannicular Reflex. *David Morton Ashkenaz* 587
The Effect of Thyreotropic Hormone Combined with Small Amounts of Iodine upon the Function of the Thyroid Gland. *Evelyn M. Anderson and Herbert M. Evans* 597
Differentiation by Strychnine of the Visual from the Integrating Mechanisms of Optic Cortex in the Rabbit. *S. H. Bartley, J. O'Leary and G. H. Bishop* 604
Acid Inhibition and the Cephalic (Psychic) Phase of Gastric Secretion. *Charles M. Wilhelmi, H. H. McCarthy and Frederick C. Hill* 619
Studies on the Dynamics of the Pulmonary Circulation. *Victor Johnson, William F. Hamilton, Louis N. Katz and William Weinstein* 624
The Spread of the Impulse in the Mammalian Ventricle. *D. I. Abramson and K. Jochim* 635

No. 4. December, 1937

The Relation of the Hypophysis and Adrenal Cortex to the Removal of Excess Glucose from the Blood of Rats. *Leo T. Samuels, Hermann F. Schott and Howard A. Ball* 649
The Effect of Atropine on Gastric Secretion and Its Relation to the Gastrin Theory. *John S. Gray* 657
The Origin of the R and T Potentials from the Mammalian Heart. *J. A. E. Eyster, M. R. Krasno, C. A. Maaske and M. J. Ulevich* 663
The Electrical Potentials of the Cochlea and Auditory Nerve in Relation to Hearing. *John Gutlman and S. E. Barrera* 666
The Relation of Amniotin to the Basal Metabolism of the Thyroidectomized Rat. *T. C. Sherwood, T. M. Wilson and H. Boneta* 671
Loss of Potassium in Voluntary Contraction. *Wallace O. Fenn* 675
The Nitrogen-Sparing Action of Glucose in Normal, Phlorhizinized and Depancreatized Dogs. *I. Arthur Mirsky, Joseph D. Heiman and S. Swadesh* 681
Factors which Influence Dark Adaptation. *Charles A. Elsberg and H. Spotnitz* 689
Serum and Urine Phosphatase Activity in the Cat after Ligation of the Common Bile Duct. *Charles A. Flood, Ethel Benedict Gutman and Alexander B. Gutman* 696
The Galvanic Nystagmus Reaction in the Monkey. *Page Northington and S. E. Barrera* 703
Effects of Mecholyl on Gastric Secretion. *John S. Gray and A. C. Ivy* 705
Rapid Decompression Following Inhalation of Helium-Oxygen Mixtures under Pressure. *Edgar End* 712
Electrolyte and Water Changes in Muscle during Atrophy. *H. M. Hines and G. C. Knowlton* 719
Electrical Studies of Ovulation in the Rabbit. *J. Reboul, H. Davis and H. B. Friedgood* 724
Absorption of Insulin from Thiry-Vella Loops of the Intestine in Normal and Depancreatized Dogs. *John R. Murlin, Ruth Latta Tomboulian and H. B. Pierce* 733
The Effect of Hexylresorcinol upon the Absorption of Insulin from the Gastro-Intestinal Tract of Dogs. *R. G. Daggs, W. R. Murlin and J. R. Murlin* 744
Reflex and Humoral Gastro-Intestinal Inhibition in Unanesthetized Dogs during Rectal Stimulation. *Wm. B. Yougmans and Walter J. Meek* 750
Acetylcholine Contracture of Denervated Muscle. *G. C. Knowlton and H. M. Hines* 757

A Relationship between the Blood Sugar Level and the Rate of Sugar Utilization, Affecting the Theories of Diabetes. *Samuel Soskin and R. Levine* 761
The Functions of the Intra-Aural Muscles. *Harold C. Wiggers* 771
A Study of Denervated Mammalian Skeletal Muscle. *A. Rosenblueth and J. V. Luco* 781
The Relation between Summation and Inhibition in a Spinal Reflex. *Saul Bernstein* 798
